LIGHT COMMERCIAL PRODUCTS

# SMALL FOOTPRINT.

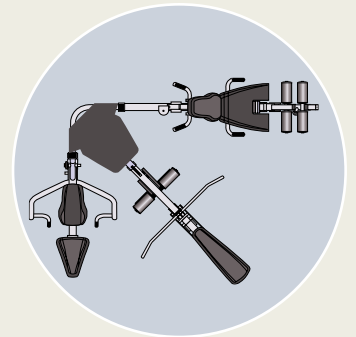

*Are you looking to provide guests, residents, or employees with a simple way to stay fit—without taking up a lot of space or hiring a staff of trainers to supervise their workouts?*

## MG-525 multi-gym

The CYBEX MG-525 is a versatile multi-gym that offers biomechanically correct exercises for a full body workout in a sleek, compact, 6.2m<sup>2</sup> (67ft<sup>2</sup>) package. It has been designed for corporate fitness, hotel or residential gym user where space is at a premium. Three people can workout at the same time on this all-in-one gym—offering nine standard exercises. All exercises were developed in coordination with the CYBEX Institute for Exercise Science—so they're safe to perform for everyone from serious strength trainers to those who just want to work up a sweat.

## 425A arc trainer

The CYBEX Arc Trainer is the most versatile cross-trainer in health clubs today. The 425A design makes it ideally suited for hotels, corporate fitness, fire and police stations, and residential housing. When the environment is less demanding than a commercial gym setting, and space is at a premium, the 425A Arc Trainer is the solution.

# BIG TIME RESULTS.

*The CYBEX MG-525, together with the 425T treadmill, 425A Arc Trainer, and upright and recumbent bikes, makes the ideal workout combination for limited space facilities. This selection of equipment is priced right without compromising the demands of your users.*

## 425T treadmill

The CYBEX LCX-425T is a light commercial treadmill built on the platform of a commercial treadmill. It offers runners and walkers all the comfort, security and features they demand while providing an amazingly small footprint and a surprisingly large running surface.

## 750C & 750R bikes

The CYBEX 750 series bikes provide distinct and compelling ways to improve your member's fitness experience whether they choose the 750C to train for the triathlon, or the 750R as they begin their journey to better fitness. The CYBEX 750C and 750R bikes deliver more of what your users demand—from exceptionally low workloads for the beginner to the versatility available in the programming variety and three resistance modes.

# SMALL FOOTPRINT. BIG TIME RESULTS.

Create a compact fitness facility with industry leader CYBEX—manufacturer of premium strength training and cardio fitness equipment. CYBEX is the brand recognized throughout the world as producing high performance exercise equipment, and now brings you a solution to complement properties where space is at a premium.

CYBEX fitness equipment is engineered to produce optimal results for users from the first-time exerciser to the professional athlete. This means low supervision needed, and the perfect versatility your space requires.

For those with a small space, a tight budget and high expectations, CYBEX can provide your users with a first class workout experience.
